

A child's first experience with school can leave an impression that lasts a lifetime!

Sunflower's Invest in Kids Programs include integrated early learning environments which foster sensitivity & respect for individual differences in others; coordinating & working with families, teachers & community partners to achieve desired early development for young children.

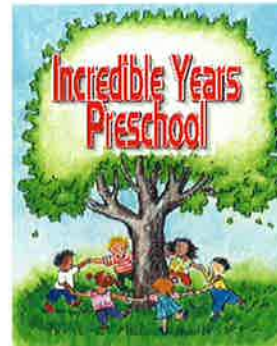

Donations to INCREDIBLE YEARS PRESCHOOL for scholarships to benefit *at risk* children, as well as donations to assist EARLY INTERVENTION SERVICES are appreciated!
We are a nonprofit agency.

Invest in Your Child's Development

WHY early screenings are so important:

90% of brain development takes place in the first three years of life.

In some cases, effective intervention can improve conditions once thought to be virtually untreatable, such as autism. The young brain is very pliable, making it easier to develop skills. Intensive, well designed and timely intervention can improve the prospects - and quality of life - for many children who may be at risk for cognitive, social or emotional impairment. Our early intervention program can lead a child to greater independence, offering a more productive, fulfilling life!

CALL FOR A SCREENING

INFANT TODDLER EARLY INTERVENTION SERVICES

Early Intervention Services are at **no cost to families**. The services are designed to meet the needs of families with a child under the age of three to help overcome or diminish delays. Early childhood special education teachers, therapists and service coordinators work together with a Primary Provider to meet the needs of your family.

We will assess skill levels & provide intervention in five developmental domains: speech & language, fine & gross motor, cognitive, self-help & social emotional skills (including relational, behavioral & autism precursors), as we assist you with functional activities for your child.

INDIVIDUALIZED PROGRAMS

are developed with an Individual Family Service Plan (IFSP), designed to target the strengths and needs of the child and the family. The child's individual needs, along with the family's choice, help to determine the selection of services.

YOUR CHILD'S NATURAL ENVIRONMENT

A natural environment is the best place for early intervention services to be provided. Our staff will come to your home, your child's day care provider or to a community location of your choice to provide services.

SCREENINGS & EVALUATIONS

Screenings are held for: Hearing & Vision plus Development in Cognitive, Social Emotional, Language, Self-Help & Gross & Fine Motor Skills. We also come to your home for evaluations to see if your child is developing as needed.

No concern is too small to call!

PLAY GROUPS

Join the fun for all Invest in Kids families, including siblings & parents. Play Groups are held periodically throughout the year... call us for dates

We often hold FAMILY SUPPORT GROUPS & PARENT TRAINING
